VEO

Goal: Activate perception and observation through multiple modalities.
UDL principle: Representation

Options for students:

- **Observe an image, video clip, soundscape, or short text.**
- **Use visual supports (pictograms, magnification, captions).**
- **Record what they see using drawing, words, voice notes, or symbols.**

SEE

PIENSO

Goal: Encourage metacognition and flexible reasoning.
UDL principle: Action & Expression

Options for students:

- **Share ideas verbally, with gestures, or through a concept map.**
- **Choose sentence starters (e.g., I think that..., It reminds me of...).**
- **Use peer discussion or digital collaboration boards (e.g., Jamboard, Padlet).**

“What do you think is happening here?”
“What makes you say that?”

THINK

ME PREGUNTO

Goal: Foster curiosity and intrinsic motivation.
UDL principle: Engagement

Options for students:

- **Ask questions using words, drawings, emojis, or voice recordings.**
- **Use “question cards” with stems like Why...?, What if...?, How might...?**
- **Work in pairs to combine or categorize questions.**

“What questions do you have about what you see?”
“What would you like to find out next?”
